

# STI STEEL WEB STOPPERS®

## UL Listed Protectors for Areas Where Abuse to Smoke Detectors is Severe

STI borrowed from nature's master builder, the spider, to create a web of protection from vandalism and accidental damage with these UL Listed wire guards. They are constructed of 9-gauge steel wire with corrosion resistant polyester coating or 9-gauge stainless steel wire. Together, they cover virtually every smoke detector model available today.

## Backed by a lifetime guarantee

As all STI protective covers, these Steel Web Stoppers are backed by a lifetime guarantee against breakage in normal use. Installation and servicing are easy with models for both flush and surface mounting. Highly recommended for areas where abuse to smoke detectors is severe.
