Subject: Larsen's Fire Extinguishers

Thank you for your inquiry regarding the fire extinguishers that Larsen's supplies.

Larsen's is an original manufacturer of fire extinguisher *cabinets*. We offer *fire extinguishers* as a purchasing convenience for our customers. To the best of our knowledge, there are no U.S. cabinet manufacturers who also are original manufacturers of fire extinguishers.

Some cabinet manufacturers may private label the fire extinguishers they supply. However, because of U.L. listings and other critical original manufacturer considerations, Larsen's does not do this. We believe it is important that the building's owner and/or owner's representative know exactly who the original extinguisher manufacturer is. Currently, Amerex Corporation of Trussville, Alabama manufactures the fire extinguishers we supply, and we retain its label on these extinguishers. Amerex is one of the world's leading manufacturers of fire extinguishers and related products.

If you have any questions, or if I can be of any further assistance, please feel free to contact me.

Thank You.

Sincerely,

Larsen's Manufacturing Company
