STI STEEL WEB STOPPERS®

UL Listed Protectors for Areas Where Abuse to Smoke Detectors is Severe

STI borrowed from nature's master builder, the spider, to create a web of protection from vandalism and accidental damage with these UL Listed wire guards. They are constructed of 9-gauge steel wire with corrosion resistant polyester coating or 9-gauge stainless steel wire. Together, they cover virtually every smoke detector model available today.

Backed by a lifetime guarantee

As all STI protective covers, these Steel Web Stoppers are backed by a lifetime guarantee against breakage in normal use. Installation and servicing are easy with models for both flush and surface mounting. Highly recommended for areas where abuse to smoke detectors is severe.

STI-9604-SS

STI-9605-SS

STI-9609

STI-9713

Features

- Patented (D368,670) web-like octagon shape of 9-gauge coated steel wire makes them extremely difficult to break.
- Models to fit virtually all smoke detectors available today.
- Steel Web Stoppers have corrosion resistant polyester coating (stainless steel models have no coating).
- UL Listed to U.S. safety standards (S3504) for any UL Listed detector, does not require any sensitivity adjustment (see reverse for details).
- UL Listing for STI-9713 (S3504) with detectors listed on reverse.

- Tamper resistant hardware is available.
- CSFM (7300-1416:100) Approved (9600 Series only).
- Lifetime guarantee against breakage in normal use.
- Stainless steel versions available for flush mount or surface mount.
- Fast and easy installation.
- Simple removal for servicing detector.
- May be spray painted once prior to installation to match decor.
