

Drywall Access Panel with Fully Detachable Hatch

Aluminum frame, with drywall inlay, for ceilings, drywall, and various applications - System F2 AK

NEW

Ready-to-paint door leaf

Description

The access panel consists of a welded aluminum frame and is available with 1/2" (12.7 mm) or 5/8" (15.9 mm) inlaid drywall and two latches.

Both an outer and an inner frame assembly consists of high grade aluminum which is bonded with a special welding process.

For sizes 12" x 12" (305 mm x 305 mm) and up the access panels are equipped with a safety-system to prevent accidental opening. This safety system must be reattached if the hatch is removed.

A reveal of just 1/16" (1,59 mm) is all that is visible of the access panel that blends into a wall or ceiling.

The concealed snap locks open the access panel when pressure is applied to the spring loaded latch side.

The panel door is equipped with a perimeter seal.

Fully detachable hatch

Customized solutions

Customized sizes can be produced in every dimension upon request.

Drywall insert with screws on larger sizes than 24" x 24" (610 mm x 610 mm).
