

Roof Hatches – KRHG/KRHA

Now Hurricane-Rated / Impact-Resistant / Miami-Dade Tested!

Hurricane-Impact Tested

Successfully passed Miami-Dade TAS 201 (Large Missile Impact) — resists flying debris at hurricane wind speeds.

Storm & Flood Ready

Passed TAS 202 Water Penetration at +30 psf and ± 50 psf design pressure with no leakage.

Proven Structural Strength

Passed TAS 203 Cyclic Load Test, simulating repeated hurricane wind cycles—over 1,300 pressure cycles completed with no failure.

Air & Watertight

Independent ASTM testing shows low air infiltration and no water entry under severe storm conditions.

Enhanced Security

Passed ASTM F588 Forced Entry Test — resistant to forced entry attempts.
